Family Background & More Information:

His mother was not married and we have no record of the father. After his mother's death his relatives were unable to support him and his siblings with enough food, healthcare, and education, so he came to HCH. Betrand is dark, thin, and confident. He has very skinny limbs and large joints – signs of malnutrition. He is now eating 3 hot meals per day. He is easy-going and easy to get along with.

Betrand wants to be a pastor when he grows up.
