Family Background & More Information:

After the death of his parents in 1999 Clovis went to live with an aunt who was very poor. They lived in a small house with a grass thatched roof and no electricity. They had no water source in the house and brought water from a source of unknown safety. He was eating less than 3 meals each day. When he came to HCH, he was welcomed with open arms by the staff and the children. No one teased him for being an albino child. They were even anxious to play with him. They saw him as a new friend.

Clovis is currently studying electricity.
