Family Background & More Information:

Ephesians has 2 brothers living at Harvest Children's Home (Crispinus & Betrand) and one sister (Nadine) who lives with relatives. Their mother died without having a husband. The relatives were unable to care for Ephesians and his siblings so they brought the children to HCH. Ephesians was very sick during his first 2 months at HCH. He was hospitalized twice and treated for Malaria. He is speech impaired and we suspect that he might have suffered some brain damage when he was ill that caused him to lose his ability to speak properly. He is one of several children at HCH who clings to the staff and follows them everywhere.

Ephesians wants to be a farmer when he grows up.
