### Family Background & More Information:

Joel has a brother and 2 sisters. His father was a pastor and his mother a teacher. Both died after long illnesses. Life has been difficult for Joel and his siblings but he is doing well at school and is adequately cared for at HCH. His older brother drives a motorcycle taxi in the town of Fundong (a job that is coveted by most young boys in Cameroon). Joel is honest and fair. As one of the oldest boys in the facility he helps maintain peace and order among the younger ones. He seems to have a strong faith of his own. He constantly shows a desire to do what is right, and chooses not to participate when his friends or peers are doing something wrong. He is confident and has a great sense of humor.

Joel wants to be a doctor when he grows up.
