Family Background & More Information:

Seldrick's brother "Kingsley" is also staying at HCH. Their parents died in 1999. His mother came home from the farm one day feeling ill, and her health declined over a period of 6 months. His father developed a swollen leg that was also not treatable at the local hospital. His aunts are uneducated and unable to care for him and his brother. His relatives visit him weekly. Upon entering HCH, Seldrick needed medical attention to recover from a stomach related illness and cough. He is now in good health and very active. He is eager to play and learn new things.

Seldrick has accepted Jesus Christ as his Savior.

Seldrick wants to be a carpenter when he grows up.
