Family Background & More Information:

Lorna's parents died when she was 2 years old. She has 3 sisters and 1 brother, but her siblings are being cared for by a family friend. (Many of the orphans at HCH are the “last-born” in their families, and were brought here because of their young age. Grandparents and family friends often find it hard to care for so many children, especially the younger ones). Upon admittance she was timid and cried a lot with homesickness, but she has completely changed. She has a few very close girl friends at HCH whom she loves to laugh and play with. She is light-hearted and full of laughter. She has done very well in school ranking in the top percentages of her classes.

Lorna wants to be an evangelist when she grows up.
