Family Background & More Information:

Shansline's parents were not married. Shansline has 3 brothers and 2 sisters which are twins, one of which has died. Shansline is not an orphan, but considered a street child. Her grandfather was the main supporter of the whole family, and he died in 1998. The mother, with no husband, felt unable to support all of the children. Shansline went to stay with her brother Robert, where she shared a bed with several siblings. Robert's house had no water source, so the family fetched water from a source of unknown safety. She was previously exploited as a baby-sitter, working for a different family and never paid. When HCH was established Shansline's mother heard about it and brought her here in hopes of giving her a better future. Shansline has a huge smile. She is more reserved than her friends and very sweet.

Shansline wants to be a seamstress when she grows up.
