Family Background & More
Information:

Vigiline has 3 older sisters. Both of her parents died in 2002-2003. She and her sisters went to live with their grandmother, and Vigiline was the only one brought to HCH because she was the youngest. At the grandmothers house there was a steady supply of food, but no electricity and no water source. She is a very fun girl, and loves to laugh and play with her friends at HCH.

Vigiline wants to be a seamstress when she grows up.
